

COMMENT FORM

Public Scoping Meetings

We need your input. Please take a few minutes to provide your comments or questions for the USDA RUS Federal Environmental Impact Statement process and return your completed form today or mail by July 25, 2009. Your comments help in the planning and implementation of the project. **Thank you.**

Completing this form will automatically add you to our mailing list. If you prefer to not be on the mailing list, please check the box below.

☒ I do not wish to be on the project mailing list

Which meeting did you attend? Plainview

Please check the following issues that are important to you for transmission line siting.

- ☐ Project Purpose and Need
- ☒ Visual / Aesthetic resources
- ☒ Proximity to residences
- ☒ Land use (agriculture, residential, recreation)
- ☐ Water resources (floodplains, river crossings)
- ☒ Biological resources (wildlife habitat, raptors)
- ☒ Historic and cultural sites
- ☒ Radio or television interference
- ☐ Noise
- ☒ Health and safety
- ☐ Other: _____

What additional key issues should be addressed when assessing the potential impacts of this project?

Hampton • Rochester • La Crosse 345 kV Transmission Project

If you own property in one of the proposed corridors, please indicate all the existing uses of your property below:

- ☐ Agriculture ☐ Residential ☐ Conservation Easement
☐ Commercial ☐ Industrial ☐ Other: _____

Please describe any special uses or circumstances on your property that should be considered when assessing the Project. Please indicate the location of your property.

In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

I am very much in favor of using the I-90 corridor for this transmission line. The route going just south of Mazeppa crosses many wild life sanctuaries where I have personally spent much time watching eagles & hawks soar, foxes play, badgers attack, and deer browse. It has been a sanctuary for me as well as the animals.

Your comment has been noted. The criteria used to route the transmission line is described in the Macro Corridor Study which is available on the RUS website at:

<http://www.usda.gov/rus/water/ees/eis.htm>. These criteria and routing process will be addressed in the Draft Environmental Impact Statement. The project is still in the development and planning stages and the utilities have not yet permitted a route for the transmission line.

The Draft Environmental Impact Statement will be available on the RUS website at: <http://www.usda.gov/rus/water/ees/eis.htm>. Comments on the Draft Environmental Impact Statement will be solicited after its publication.

In your opinion, was the project description, purpose, and need for the project adequately explained? If not, what additional information is needed?

Please tell us how to reach you.
